

I am opposed to the expansion of LPFM that would allow stations to take priority over current FM translator service. I regularly listen to K-LOVE radio. K-LOVE radio serves my local community in a positive and encouraging manner that other stations do not. K-LOVE provides programming that is not available from any other local broadcast service. They are a unique station. If they were to be displaced by another LPFM broadcaster the positive programming they produce would be completely lost. I believe the service provided by K-LOVE to be unique and it is in the public interest to ensure the future of this broadcaster that is unique in delivering family-friendly programming to the public. It is in the public interest to ensure the future of commercial free radio such as that service of K-LOVE.
